

**Sustainable Engineering and Technologies**

**CALL FOR PAPERS July 29-30, 2019 | Kuantan, Pahang, Malaysia**

The 5<sup>th</sup> International Conference on Electrical, Control and Computer Engineering (InECCE 2019) aimed to provide a platform for engineers, academia and researchers to disseminate and discuss their current research findings and scheduled to be held on **29-30 July 2019** in **Kuantan, Pahang**. This conference will offer a comprehensive technical program addressing all the latest developments in research and technology for electrical and electronics engineering and its applications. It will feature world-class speakers, oral sessions, keynotes and plenaries, and exhibitions, and is expected to attract many leading researchers and industry figures from all over the world.

## TOPICS OF INTERESTS

We invite the submission of original, unpublished technical papers on topics including but not limited to:

### Instrumentation, Control and Artificial Systems:

- Autonomous and unmanned system
- Bioinspired/biomimetic system
- Space and marine robotics
- Robotics in medical
- Instrumentation and process control
- Thermographics
- Photonic and gas-based sensors
- Biosensors
- Agent-based modelling
- Swarm intelligence
- Evolution computation
- Computational intelligence
- Mechatronics
- Underwater technology

### Applied Electronics and Computer Engineering:

- Embedded technology and applications
- Internet of Thing
- Microelectromechanical systems, VLSI
- Signal and image processing
- Medical electronics and imaging,
- Network and communication technology
- Antenna, RF, microwave, mobile, wireless, networks
- Computer engineering and application
- Artificial intelligence, fuzzy, cloud computing and optimization

### Sustainable Energy and Power Engineering:

- Renewable energy, energy efficiency and energy policy
- Energy storage
- Energy management, policy and economics
- Power system engineering
- Power electronics and drives
- Applications of computational intelligence in engineering
- Electric vehicle power and propulsion
- High voltage engineering
- Power quality, protection and electromagnetic compatibility
- Photovoltaic system, PV forecasting and solar irradiance forecasting

**All accepted papers will be submitted for inclusion in Lecture Notes of Electrical Engineering published by Springer and indexed by SCOPUS**

## IMPORTANT DATES:

Submission Due	<del>1 April 2019</del> <b>1 May 2019</b>
Notification of Acceptance	<b>15 May 2019</b>
Registration & Camera Ready Submission	<b>15 June 2019</b>
Conference	<b>29-30 July 2019</b>
